COOPERATION CASE

COOPERATE WITH MANY WELL-KNOWN COMPANIES

FANUC  BOSCH Honeywell  TRATON

OMRON

ABB

dji

SKF

 SANY

 Carrier

 Ford

 COMAC

 TECHNOGYM

DOOSAN

SIEMENS

Valeo

 南方精工
NanFang Precision

WHAT WE CAN DO

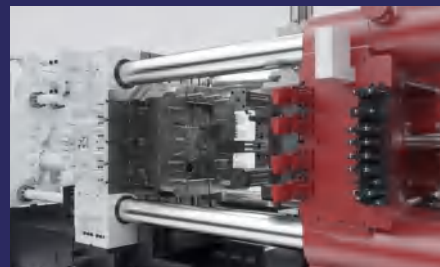

CNC Milling

CNC Turning

Sheet Metal

Die Casting

Laser Cutting

Powder Metallurgy

Forge

Plastic Injection

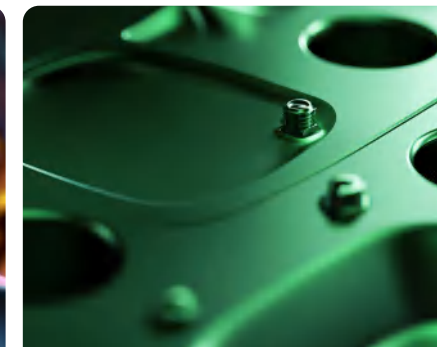

3D Printing

SURFACE TREATMENT AVAILABLE

Anodizing

Sandblasting

Powder coating

Brushing

As-machined

Black oxide

Electroplating

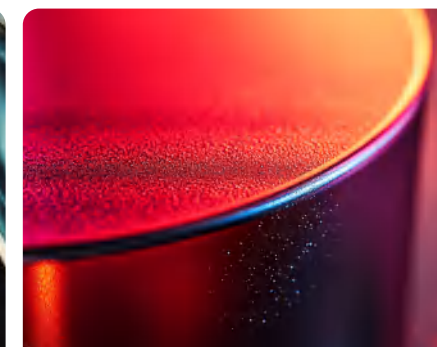

Alodine

Polishing

Mirror polishing

Spray paint

Deburring

OUR ADVANTAGES

SKILLED TECHNICAL TEAM

We have a team of 6 experienced R&D engineers and over 30 quality inspectors, capable of efficiently handling complex machining requirements. Strict production standards are enforced to ensure superior precision and quality.

ADVANCED EQUIPMENT CLUSTER

Equipped with more than 170 sets of precise production and inspection equipment, we meet high-volume procurement demands with outstanding accuracy and efficiency.

STRINGENT QUALITY CONTROL

A comprehensive quality management system is in place, featuring rigorous checks from raw material sampling and in-process inspections to final product checks. Using advanced testing equipment and scientific methodologies, we strictly monitor key parameters such as dimensions, precision, and performance, ensuring zero defects in product quality.

ONE-STOP MACHINING SERVICE

NAITE TECH offers a one-stop solution covering design, raw material sourcing, manufacturing, quality inspection, and delivery. Our proximity to Shanghai ensures convenient import and export logistics, reducing costs and enhancing delivery efficiency.

APPLICATION SCENARIOS

Agricultural equipment

Automobile industry

Computing equipment

Pharmaceutical industry

Medical / dental instruments

Armament

Measuring instruments

Miscellaneous equipment

Textile equipment

Orthopedic implants

Safety equipment

Petrochemical industry

Industrial valves

Fixing and movable equipment

Sanitary fittings

General machinery

Pumps and general connections

Food and beverage processing

Instrumentation equipment

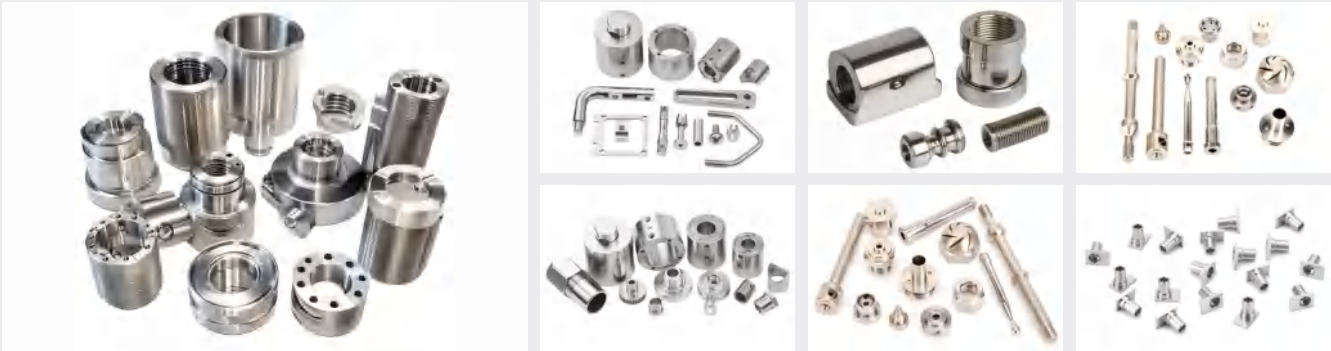

Intelligent Robot

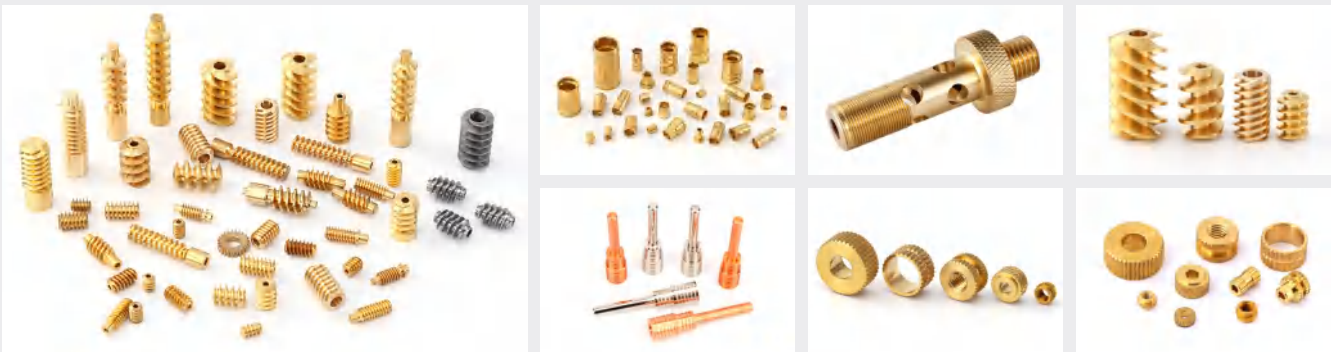

Drone

PARTS SHOW
